

WEB DASHBOARD NODES FOR CREATE UI

Date	14 November 2022
Team ID	PNT2022TMID54363
Project Name	Real – time River Water Quality Monitoring and Control System
Maximum Marks	4 Marks

A proper and modern UI dashboard will provide users with easy access to the information they require. To achieve this, the dashboard information must be easy to scan and contain only the most important information. However, with so many tools available, it can be difficult to make the right choice or avoid overusing features.

This is one of the many roles of a UX designer, and as such, it necessitates the knowledge of certain tricks in order to be handled correctly.
